1998 Analytical Review DWCCA-1620-ELE

Dear Ms. Schultz:

The Public Service Commission (PSC) is in the process of completing an analytical review of your utility's 1998 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. During our review, we noted \$62,943 was retired from Account 310, Land and Land Rights, page W-9. The footnote to the schedule indicates the amount was reclassified to Account 394, Property Held for Future Use. Amounts reported in this account need a definite plan for future use, or they should be reclassified to Account 121, Nonutility Property. Please confirm there is a future plan for use of this property.

2. During our review, we noted amounts reported for mains and services contributions in Account 271, Contributions in Aid of Construction, page F-17. Footnotes to the Water Mains and Water Services schedules indicate these mains and services were paid for by the municipality. If these amounts are not to be special assessed to customers, they should be reclassified to Account 200, Capital Paid in by Municipality.

3. During our review, we noted that total Plant Operation and Maintenance Expenses reported on W-1 increased over 30% from 1997. Please furnish a brief explanation.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 266-3768. Please

respond within 30 days of this letter. If we have no questions regarding
